

RGB Mileage User Guide

Version 2.1.2 - Shell Repair

Release Scope

- This release repairs the application shell only.
- Navigation stack and Back buttons are included.
- Safe-area and footer/navigation placement are included.
- Images, dropdowns, reports, and forms remain scheduled for later incremental releases.

Testing

- Verify app opens in Safari and Home Screen PWA.
- Verify version shows v2.1.2.
- Verify Back and Cancel behavior.
- Verify no content appears under Dynamic Island.
- Verify no white area appears at bottom.
