

RGB Mileage User Guide

Version 2.1.0 - 2026-06-05

Overview

RGB Mileage is a vehicle record-preservation system for fuel, maintenance, insurance, and vehicle acquisition records.

Home Screen

- Tap a vehicle circle to open Quick Fuel Entry.
- Long press a vehicle circle to View Vehicle.
- Vehicles and records are archived instead of hard deleted.

Previous Records

- Tap a previous record to expand or collapse details.
- Long press a previous record to open View Record.
- View mode is read-only. Press Edit to modify.
- Archive hides a record from normal views and reports while preserving it in backups.

Backup and Restore

- Create JSON Backup from Data Management.
- Restore JSON Backup replaces the local database after confirmation.
- Backups from v2.0.6 and newer are supported whenever technically possible.

CSV Import

- Use Data Management to preview CSV imports.
- Duplicate Record IDs are skipped by default.
- XLSX import remains deferred.
